

Appraisals and Property Inspections must be performed AFTER the effective date of the disaster. If an appraisal inspection was performed PRIOR to the effective date and your application is BEFORE the end date you must update the appraisal with a 2075 Property Inspection. Streamline Refinances and IRRRLS in declared disaster areas are subject to a 2075 exterior appraisal/disaster inspection. Disasters are listed by most recent first. If disaster spans over several days/weeks the effective date will be first date effective and the end date will be measured from FEMA's last "incident" date.
