

Wholesale ANNOUNCEMENT 2018-22 January 3, 2019

Government Shutdown

Follow up to the previous announcement concerning the government shut down.

Previously, we stated that the NFIP would not be able to issue new policies, renew policies or increase coverage on existing policies. We are correcting this to state: The NFIP will have limited availability to issue new policies, renew policies, increase coverage, etc.

Our credit policy team is closely monitoring the partial government shutdown and is in constant contact with credit leadership. We are doing everything possible to limit the amount of disruption caused by the partial government shutdown.
